## About us

At ANTON Surgiwear we excel in manufacturing premium surgical disposable drapes and general products. With a commitment to excellence, we ensure that every product delivers unmatched quality, comfort, and reliability. Partnering with us means equipping healthcare professionals with the finest tools to enhance safety and performance in critical medical environments.

## Our Comprehensive Product Range

ANTON Surgiwear provides a versatile lineup of surgical products meticulously designed to cater to diverse medical scenarios:

- **Surgical Drapes:** Sterile, single-use drapes ensuring contamination-free surgical zones.
- **Surgical Gowns:** Protective, breathable, and ergonomically designed for extended comfort.
- **Face Masks and Caps:** Superior filtration and snug fit to maintain sterility.
- **Protective Aprons and Sleeves:** Robust yet lightweight, offering full coverage for high-risk procedures.
- **Patient Gowns and Apparel:** Hygienic designs prioritizing patient comfort and mobility.

## Why Choose ANTON Surgiwear?

- **Unmatched Quality Standards:** Premium materials and meticulous craftsmanship.
- **Innovative Manufacturing:** Utilizing cutting-edge technology for precision.
- **Global Compliance:** Adhering to international safety and medical standards.
- **Tailored Solutions:** Customizable designs to fit unique medical and branding requirements.
- **Proven Reliability:** Trusted by leading healthcare institutions worldwide.

## Our Commitment to a Greener Future

ANTON Surgiwear embraces environmental responsibility by integrating sustainability into our operations. We are driven to create eco-friendly solutions that support a healthier planet.

## Sustainability Initiatives:

- Adoption of biodegradable and recyclable raw materials. / \*Energy-efficient processes to minimize our carbon footprint.
- Waste reduction through lean manufacturing principles. / \*Active participation in green healthcare initiatives.

## Precision Manufacturing with Ultrasonic Technology:

We utilize advanced ultrasonic machines to ensure a completely contactless manufacturing process. This state-of-the-art technology guarantees precision, hygiene, and efficiency, making it ideal for medical-grade production.

## High-Quality Raw Materials for Medical Standards:

We adhere to the highest industry standards by using premium raw materials that comply with medical industry requirements. Our commitment to quality ensures that our products meet the strictest safety and performance standards.

## Certified for Excellence & Compliance:

To uphold the highest levels of quality and safety, we are equipped with the following certifications.

- Certificate of Compliance / \*Comprehensive Lab Reports.
- ISO 13485:2016-International Standard for Medical Device Quality / \*Management Systems.
- Manufacturing License.

GMP  
(Good Manufacturing Practices)

U.S. FDA  
(FDA Regulatory Guideline for Scientific and Medical Instruments)

## MEDICAL NON-WOVEN FABRIC USED:

SPUNBOND, SMS / SMMS / SMMMS / SSMMS / PE + PP

BREATHABLE TRILAMINATE, LAMINATED

Product Code : ATPL/SW-WAG01/SG02/MG03/RSG04

### Specification:

- Reinforced surgical gowns are used by medical persons in the operating room during surgeries.
- Suitable for general and major surgeries such as orthopedic and urology procedures, helping to prevent bacterial transfer between the surgeon and the patient.
- Reduces the risk of contamination and infection between patients and the surgical team.
- Protects the body from infections.
- Features adjustable holes, loops, and neckline.
- Lightweight and breathable.
- Easy to wear.
- Ultrasonically sealed.
- Supplied in book-fold packaging.

### MEDICAL NONWOVEN FABRIC USED:

PP SPUNBOND + MELTBLOWN FILTER + SPUNBOND.PP SPUNBOND + SMS + SPUNBOND.

Product Code: ATPL/SW-FM06/EM07/HLM08/SBM09/TTM10

### \*Available Colours:

GREEN

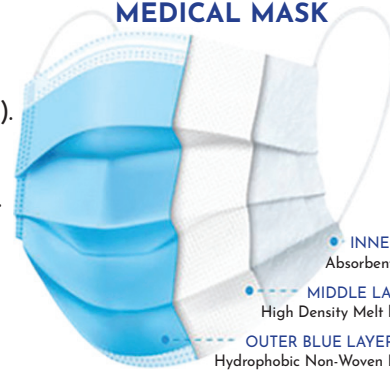

BLUE

WHITE

### Specifications:

- Available in 2/3/4-Ply.
- Latex-free round Lycra elastic, 7.5": elongation 1:2.
- Inside elastic sealing for comfort and neater packing.
- Easier and quicker to wear than tie-on masks.
- International universal mask size: 175 mm x 95 mm (or Kids: 145 mm x 45 mm).
- 10 mm PP side banding provides strong elastic attachment.
- Grammage and materials can be customized as per client requirements.
- Malleable soft PE-coated aluminum nose clip prevents air leakage.
- High bacterial/particle/viral filtration levels (>95%, >99.99%).
- Low breathing resistance (Delta P <29, 4 Pa).
- Fluid-repellent masks available (4-Ply: splash resistance >120 mmHg).
- 3-Ply masks adhere to European Class EN 14683 Type I & II, CE marked.
- Test reports from Park Non-Woven.
- Bureau of Quality Standards ISO 13485:2016 certified.
